Total	\$84,900.00	\$102,970.00	\$127,994.50	\$86,898.88

Please Read

The Aircraft Bluebook is designed and developed as a service for the purchasers thereof to assist them in arriving at the fair market value of aircraft listed herein, but is intended only as a guide and is not to be considered to reflect all factors involved in the appraisal process of any particular aircraft. All prices in the Digest are considered a representative average.

Drawings are for general reference only and may not incorporate minor differences between year models.

The information herein is prepared from many sources, is edited, and believed to be correct. The publishers do not warrant the accuracy of the source material and assume no responsibility to any person or persons in connection with the use of this guide. In case of error or omission, the liability of the company, if any, is limited and many not, in any event, exceed the amount paid for the service during the period covered by the guide in which the error or omission occurred.

AIRCRAFT VALUATION

Engine Model
IO-360-A3B6D
Fac. Reman.
\$41,462.00
Overhaul
\$29,000.00

Important Aircraft Valuation Note

This service is not designed to provide a detailed appraisal on a particular serial number. Even on the most simple aircraft, the variables are so numerous and complex that prices can and do vary even between consecutive serial numbers of the same type. An on-site inspection of the aircraft and its records by a qualified appraiser can reveal a much different value. Additionally, the aircraft resale market is a dynamic environment, and prices can change from month to month. There are many intangibles that should be considered. These include the availability of a particular model, damage history (or lack thereof), maintenance history, and quality of refurbishments and upgrades. The AOPA Aircraft Valuation Service can be used as a good starting point when attempting to determine the general retail value of an airplane. However, the true value of an aircraft can only be ascertained on a case-by-case basis resulting from a mutual agreement among the buyer, seller, and lender. Users of the AOPA Aircraft Valuation Service agree to hold AOPA and Vref harmless from any and all liability related in any way to the use of the service.
